PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science undergraduate with strong fundamentals in programming, web development, and databases. Skilled in developing full-stack applications using React, Next.js, Node.js, and PostgreSQL. Passionate about problem-solving, software development, and building scalable real-world applications.

EDUCATION

MLR Institute of Technology College

B.Tech in Computer Science Engineering | CGPA: 7.68/10.0

2023 – 2027

Hyderabad, Telangana

Sri Chaitanya Junior College

Intermediate Board of Education | Percentage: 89%

2021 – 2023

Hyderabad, Telangana

A.S. Vidya Vihar High School

Secondary Education | CGPA: 10.0/10

2020 – 2021

Hyderabad, Telangana

TECHNICAL SKILLS

Programming Languages:	C, Java, Python, JavaScript
Web Technologies:	HTML, CSS, React, Node.js, Express.js, Next.js
Database Systems:	MySQL, MongoDB, PostgreSQL
DevOps & Tools:	Git, GitHub, Docker, REST APIs, CI/CD, VS Code
Core Concepts:	Data Structures and Algorithms, OOP, DBMS

PROJECTS

- **Expense Tracker** React | Next.js | PostgreSQL
 - Developed a fully functional Expense Tracker application with CRUD operations for expense management.
 - Implemented secure authentication, budget management, and expense logging features.
 - Integrated bar chart visualization for tracking and analyzing spending patterns effectively.
 - Designed responsive and user-friendly dashboards using Tailwind CSS for better user experience.
 - Implemented filtering and categorization of expenses for efficient financial tracking.
 - Optimized database queries and API calls to improve application performance and speed.
 - Used Git and GitHub for version control and collaborative development workflow.
- **BudgetBites: Healthy Eating Planning For Low Income Families** HTML | CSS | JavaScript | PHP | MySQL
 - Developed a web-based meal planning platform for low-income families to maintain balanced nutrition within budget constraints.
 - Created personalized meal planning features based on user budget and dietary requirements.
 - Integrated APIs and managed backend databases using MySQL and Apache server technologies.
 - Focused on improving awareness of healthy eating through affordable meal recommendations.
 - Designed an intuitive and responsive interface for smooth accessibility across devices.
 - Implemented user data storage and retrieval functionalities for personalized meal suggestions.
 - Enhanced overall usability by improving navigation, layout structure, and content organization.

CERTIFICATIONS

- Cloud Computing Course – NPTEL
- Project Certificate in Web Development – InternPe
- Infosys Springboard Internship

EXTRACURRICULAR ACTIVITIES

- Practicing Yoga regularly to improve physical and mental well-being.
- Actively participating in coding contests and hackathons to strengthen problem-solving skills and gain practical experience.
