

Tarak Suhas Abhiram Puppala

B.Tech - Computer Science and Engineering

Roll number:22CS8082

Gender: Male

Date of Birth: 29/08/2005

Category: OPEN

E-mail:taraksuhas5@gmail.com

Contact:6305623505

Address: Pallem st., Bobbili, Vizianagaram dist., Andhra Pradesh

Educational Qualification

• Graduation

SEM	1	2	3	4	5	6	7	8
SGPA	8.14	8.37	8.07	8.69	8.98	9.07		
CGPA	8.14	8.24	8.19	8.32	8.44	8.54		

• Higher Secondary & Secondary

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2022	Class XII	Board of Intermediate Education, Andhra Pradesh	95.3%
2020	Class X	Board of Secondary Education, Andhra Pradesh	99.7%

Academic Achievements

- GATE CS: Rank 4135, Score 568
- GATE DA: Rank 2676, Score 471
- Solved 250+ coding problems on platforms like LeetCode, GeeksforGeeks, Hackerrank, and InterviewBit.

Skills Summary

Technical Skills:

- **Languages:** C, C++,
- **Python AI & Vision:** ML, DL, OpenCV, CNN's, XAI's
- **Systems:** Computer Networks, OS, DBMS, OOP, Embedded (Arduino UNO)
- **Tools:** Git, GitHub, Google Colab, Kaggle

Non Technical Skills:

- **Communication:** Able to quickly convey ideas and information concisely
- **Adaptability:** Able to quickly adapt to new ideas, environments and challenges
- **Time Management:** Skilled in prioritizing tasks and managing time efficiently to meet deadlines.
- **Leadership:** Able to lead and motivate teams to achieve goal efficiently

Internship

Research Intern | NIT Tiruchirappalli, Tamil Nadu, India

- Under Dr. Bukke Chandrababu Naik
- Developed "PolarResNet-WBC," a deep learning framework utilizing polar-domain preprocessing and residual CNNs for robust white blood cell classification.
- Implemented custom residual blocks to mitigate gradient vanishing and enhance robustness against orientation variance. Achieved 99.67% accuracy, 99.67% precision, 99.68% recall, and an F1 score of 0.9967 on a five-class WBC dataset.

Projects

Multi-Omics Lung Cancer Classification (ML, DL, Python, PCA, SMOTE)

- Implemented a deep learning model for lung cancer classification by integrating three omics datasets (RNASeq, miRNA, DNA methylation).
- Performed comprehensive preprocessing, including differential analysis (DESeq2, LIMMA) and feature reduction via PCA (from hundreds of thousands to 400 features).
- Addressed class imbalance using SMOTE, achieving a robust 93% accuracy with an MLP model

Drowsiness Detection Model with Age Prediction(Python, CNN, OpenCV, Haar Cascades)

- Developed a real-time drowsiness & age detection system leveraging CNNs and OpenCV for robust performance.
- Integrated Haar cascades for accurate facial recognition and tracking, enhancing monitoring capabilities with live input previews and visual feedback.

AI-Powered Subway Surfers Game Bot (Python, CNN, ResNet18, Pyautogui, Git)

- Engineered an AI model that achieved 90% accuracy in autonomously playing Subway Surfers.
- Utilized PyAutoGUI and Win32 API for precise real-time keystroke simulation and game interaction.
- Implemented ResNet18 for efficient image recognition and decision-making, collaborating via Git for streamlined development.

Positions of Responsibility

Creative Head, SAE Collegiate Chapter, NIT Durgapur (04/2022 - Present)

- Senior Technical Team Member (Robotics Division) promoting mobility engineering.

Extracurricular Activities

- Core Team Member, AAROHAN Fest - Part of the organizing team for East India's largest technical fest for 3 years; conducted multiple technical events.
- Organizing Team, TEDx NIT Durgapur 2024 - Assisted in event logistics and planning. Conducted Robotics & Machine Learning workshops at NIT Durgapur.
